

True or false: it is safe to put a horse on cross-ties in a rope halter IF the cross-ties are breakaway.

- A) true
- B) false

The correct answer is A, true.

Breakaway cross-ties will allow the horse to get loose if they spook, even if the horse is wearing a non-breakaway halter.

What is a horse's stomachache called?

- A) colic
- B) canter
- C) cantle
- D) cinch

The correct answer is A, colic. Colic is a very

serious condition and can be deadly, especially when left untreated.

True or false: horses wearing fly masks cant see.

- A) true
- B) false

The correct answer is B, false. Although it may look like they're blindfolded, a horse wearing a fly mask is still able to see.

What reasons might make someone want to clip their horse?

- A) they want to show their horse
- B) they want to save time grooming their horse
- C) their horse is working and sweating a lot
- D) all of the above

The correct answer is D, all of the above.

Not all horses need to be clipped, but clipping can benefit high performance horses.

True or false: it is best to always blanket a horse, no matter how warm it is, so they don't ever get cold.

- A) true
- B) false

The correct answer is B, false.

Horses are at an increased risk for colic when they overheat, so blankets should only be used when necessary.
